Tie Game at Richmond.

The Wentworth third team played a score game with the Richmond High School Friday at Richmond. The Richmondites outweighed the cadets, but this advantage was upset by the superior training of the academy boys. The game was hard fought and comparatively clean all the way, and the cadets admit that they got a square deal. The third team came within two inches of a safety and within two yards of a touchdown, and their goal line was never seriously threatened.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers every where to give it without hesitation even to very young babies.

The whole some green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membrane. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract that helps to heal aching lungs. The Spaniards call this shrub which the doctor uses "The Sacred Herb." Demand Dr. Shoop's. Take no other. You can't be well if you have a weak, unhealthy, tired out stomach. Neither can you feel good if by some little irregularity in eating you have caused the stomach to get out of order. These little stomach troubles are signs of indigestion, which may and very often does turn into a very bad case of dyspepsia. Don't allow this to go on a single day without doing something to overcome it. Take some good reliable and safe digestant like Kodol for dyspepsia. Kodol is the best remedy known to day for heart burn, belching and all troubles arising from a disordered digestion. It is pleasant to take and affords relief promptly. Sold by Leroy Farmer.

The Society for the friendless which Mr. Bollman represents has had a remarkable growth.

This organization is the first friend of the ex-convict. More than 100 men have been aided in this state by finding them employment homes, working clothes, and in many other ways, encouraging the friendless to take heart again and become respectable, law abiding citizens. The movement is managed by a board of directors and supported by the gifts of the people.

Mr. Bollman's home address is 506 K. C. Life Building, Kansas City, Mo.

Greatness.

No man can be justly considered great until it makes a difference whether the papers quote him or not.

Fashions in Maine.

Up in Arcoslook, where new-fangled ideas in manner of dress are not in vogue, the men use their old vests for bathing suits, by putting their legs through the armholes.—Bangor (Me.) News.

New England's Totem.

Fish was the foundation of New England; religion was an incident of its settlement, and religious freedom a very negligible quantity. We do well to hoist the codfish to the summit of our statehouse; the fish remains while the ferocity of religion has attenuated to indifference or worse. The fisherman not the fanatic founded the commonwealth.—Boston Traveler.

Had to Begin Early.

Lope de Vega was learned when a mere boy. At five he could read Latin and Spanish fluently and at 12 he was master of the tongue and of rhetoric, while at 15 he had written several pastorals and a comedy. He is stated to have produced about 1,800 comedies during his life, so perhaps it was necessary to begin when very young.

Music in America.

The Americans are a really musical people, for the reason partly that they can afford to pay for the best of everything, and therefore hear the finest artists and the best performances. There is no orchestra in the world to equal the Boston Philharmonic.—Mme. Melba, in a London interview.

Wine Bottling in Germany.

The bottling of sparkling wines began in Germany about the year 1820, a firm at Coblenz on the Rhine making the first 5,000 bottles for export in 1843 and succeeded in a short time in creating a market for their sparkling bottles and Moselles in England and in the English colonies, India and Australia.

A Noble Idea.

Just to be good, to keep life pure from degrading elements, to make it constantly helpful in little way to those who are touched by it, to keep one's spirit always sweet and avoid all manner of petty anger and irritability—that is an idea as noble as it is difficult.—Edward Howard Griggs.

Appropriately Named.

The proprietor of an East side bakery, which does a flourishing mix lunch business as well, is a garrulous old chap who has a great deal to say to all his patrons. And that is why somebody wrote on the white paint in indelible characters: "Hot Air Lunch Room."—N. Y. Press.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn heavy growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I can cure all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes truly pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help.
